Student Satisfaction Survey (SSS) on overall institutional performance 2018-19

At the end of the academic year the College conducts Student Satisfaction Survey in order to know about completion of syllabi, methodologies adopted by teachers, adherence to the contents and modes and modalities of continuous assessment or internal evaluation for each subject.

Students are asked to give inputs about completion of syllabus of individual subject by concerned teacher. Students are asked to reply whether syllabus was completed within time by teachers. In the year 2018-19, admissions to LL.B. I Year were prolonged and teachers were given specific directions to complete the syllabi of LL.B. first year's first semester by conducting extra lectures during winter vacation period. Accordingly extra lectures were arranged for these students and syllabi were completed.

Students were asked questions about syllabus coverage, preparation of teachers for classes, communication ability of teachers, use of ICT by teachers. Students were also asked about internal evaluation process, assignments therein. Similarly students were also asked to opine about extra-curricular activities, soft skills and life skill imparting by the Institute.

Out of the students participating in SSS, more than 80% students showed satisfaction about syllabi coverage in the class rooms within stipulated time. These students also showed satisfaction for use of ICT by teachers. According to more than 85% students, teachers were prepared for the classes and were able to communicate with students during classes and also expressed positive opinion about use of students centric methods.

80% students were satisfied with the mentoring by their mentors and stated that the institute took active interest in developing soft skills, life skills among the students.

More than 70% students showed satisfaction about continuous assessment and internal evaluation processes adopted by institute.
